

ECT Careers

Start a career with ECT and you'll get more than just a job.

From day one, we help you to develop your future and give you the opportunity to share your own ideas and initiatives to become part of our future. Our international team comes from many different regions around the world - our one common language is English.

We support all of our team members from abroad with the local immigration authorities and in looking for accommodation and schools. In addition, team members often attend courses in programming languages, operating systems, database technologies, as well as sales and management coaching. We employ working students both in Germany and in other European countries and ensure that we are quick to attract talent to the company by assisting students.

If you are interested in becoming part of the ECT team, please take a look at our current career opportunities below. Please always include the title of the position you are applying for in the subject line of your e-mail.
